special edition of the federal register containing a codification of documents of general applicability and future effect as of april 1 with ancillaries

this remarkable book enhances ariella azoulay s position as the most compelling theorist of photography writing today  
jonathan crary author of scorched earth a groundbreaking work on the power of photography as a vehicle for civil protest  
understanding photography is more than a matter of assessing photographs writes ariella azoulay the photograph is merely

one event in a sequence that constitutes photography and which always involves an actual or potential spectator in the relationship between the photographer and the individual portrayed the shift in focus from product to practice outlined in civil imagination brings to light the way images can both reinforce and resist the oppressive reality foisted upon the people depicted through photography civil imagination seeks out relations of partnership solidarity and sharing that come into being at the expense of sovereign powers that threaten to destroy them azoulay argues that the civil must be distinguished from the political as the interest that citizens have in themselves in others in their shared forms of coexistence as well as in the world they create and transform azoulay s book sketches out a new horizon of civil living for citizens as well as subjects denied citizenship inevitable partners in a reality they are invited to imagine anew and to reconstruct beautifully produced with many illustrations civil imagination is a provocative argument for photography as a civic practice capable of reclaiming civil power

of all the topics in the history of philosophy the history of different forms of thinking and contemplation is one of the most important and yet is also relatively overlooked what is it to think philosophically how did different forms of thinking reflection contemplation critique and analysis emerge in different epochs this collection offers a rich and diverse philosophical exploration of the history of contemplation from the classical period to the twenty first century it covers canonical figures including plato aristotle descartes and kant as well as debates in less well known areas such as classical indian and islamic thought and the role of speculation in twentieth century russian philosophy comprising twenty two chapters by an international team of contributors the volume is divided into five parts flourishing and thinking from homer to hume the thinking of thinking from augustine to gödel images and thinking from plotinus to unger bodies of thought and habits of thinking from plato to irigaray the efficacy of thinking from sextus to bataille thought a philosophical history is the first comprehensive investigation of the history of philosophical thought and contemplation as such it is a landmark publication for anyone researching and teaching the history of philosophy and a valuable resource for those studying the subject in related fields such as literature religion sociology and the history of ideas

a journal devoted to the discussion of political economic and sociological questions
