have you ever wondered whether or not our destiny is predetermined or how much of a choice do we really have when it comes to free will in shaping our own lives especially while society and government continues to limit our circumstances this book attempts to answer these questions and more in a world set thousands of years and several millennia in the future we might find that many problems and issues we face today will persist unless we change the way we look at our world in the year 3333 a d on planet zeon where the sky is no longer the limit a nonconformist philosopher goes up against all odds to revive the importance of artists in a society filled with laser bolts and launch pads where original ideas are becoming a rare commodity in the face of fast paced technological mass production will commercial materialism dominate ethical values or can people regain their spiritual independence if a picture is worth a thousand words then this book might be worth millions it is a must read for anyone who has ever struggled to be recognized for their artistic integrity in order to survive amidst such a competitive corporate world dominated by greed its for anyone who has ever worked hard for their dreams to come true

we are a part of the vast sea of humanity that is searching the ultimate utopia misled by the thought that successful careers and wads of currency will buy us a place here so in a bid to accumulate those wads and reach the pinnacle of successful careers we have surrendered our peace of mind unblemished souls and physical health the 24x7x365 culture has invaded this planet companies proudly flaunt the nonstop work culture slave driving their employees with promises of more greenbacks to compensate for the mental peace and happiness they have lost the taunt muscles the rigid jaws and the overstrained nerves are a few pointers to our unrelenting torture of the self so man today is sick because he thinks he is sick sickness and disease have no place in the life of person who does not accept and tolerate the self limiting thoughts which are real seeds of our myriad ailments we stand hypnotized by the belief that disease and illness are our fate and destiny rather than health and bliss which are truly our birth right and heritage in order to emerge from our mass hypnosis and collective hysteria and to experience health joy and creative fulfilment we must make a systematic application of holistic living through alternate therapies in our daily life the success of efficacy of alternate therapies he experienced provided the impetus inspiration to him to come with compendium of his documented collection over a decade in this book in effect this book makes a humble effort in finding a genuine and truly helpful lifeline for many people giving important popular alternate therapies in single window for ready reference self study and self treatment as its primary objective it is to help you live life to the hilt that his book has been written life is not about toil and ambition alone it is about enjoying each moment it is learning to relax and take things in stride it is about the blissful enjoyment of the years granted to us on this planet believe me you will be more successful happier and contented if you pursue your career relationships and ambitions in a relaxed manner outlined in this book

this book presents frontier research in computational mechanics of mine rock mass and tackles the major engineering problems of unconventional oil and gas resources exploitation the hydrofracturing which forms a complex fracture network in deep reservoir rock is a key technology for oil and gas flow and extraction the propagation behaviors such as deflection penetration and intersection and fracture network morphology are crucial to the evaluation and control of oil and gas production this book mainly introduces from the following three aspects

including deflection of fracturing fracture network disturbed by discontinuity in rock deflection of fracturing fracture network disturbed by multiple fractures propagation and deflection of fracturing fracture network in supercritical co2 fracturing the book focuses on the numerical research progresses of deflection of fracturing fracture network disturbed by discontinuity and multiple fractures in rock which covers the following main contents 1 dynamic intersection and deflection behaviors of hydraulic fractures meeting granules and natural fractures in tight reservoir rock based on statistical modelling and fractal characterization 2 deflection behaviors and fractal morphology of hydraulic fractures meeting beddings and granules with variable geometrical configurations and geo mechanical properties 3 dynamic propagation of tensile and shear fractures induced by impact load in rock based on dual bilinear cohesive zone model 4 center and edge type intersections of hydraulic fracture network under varying crossed natural fractures and fluid injection rate 5 wells connection and long hydraulic fracture induced by multi well hydrofracturing utilizing crossed perforation clusters 6 deflection of fracture networks and gas production in multi well hydrofracturing utilizing parallel and crossed perforation clusters 7 supercritical co2 driven intersections of multi well fracturing fracture network and induced micro seismic events in naturally fractured reservoir given its scope the book offers a valuable reference guide for researchers postgraduates and undergraduates majoring in engineering mechanics mining engineering petroleum engineering geotechnical engineering and geological engineering
