now in its third edition peace education provides a comprehensive approach to educating for a just and sustainable future it begins with religious and historical trends that have molded our understanding of peace and then presents a variety of ways to practice peace education in schools and communities and explains how it can motivate students the teaching and practice of peace education provides a basis of valuable knowledge about resolving conflicts and transforming violence without the use of force instructors considering this book for use in a course may request an examination copy here

different forms of trauma affect many millions of people trauma also helps to shape individual and collective memories this innovative book explores how traumatic occurrences and processes are remembered using examples from well known events like the khmer rouge genocide in cambodia the indian ocean tsunami in aceh and civil conflict in southern thailand and aceh as well as the experiences of comfort women in the philippines ethnic minority students and interreligious tensions in malaysia the contributors examine how people face survive and make sense of the frictions and violence in their lives embracing history ethnography textual analysis storytelling and art the multidisciplinary perspective enables a deeper understanding of both traumatic stress and the structures of memory trauma memory and transformation also moves the discussion of traumatic memory away from paralysis and towards transformative action in the ways that memories of catastrophe can be reimagined as forms of resistance or even peace this original book will be essential reading for all those interested in the study of memory in the southeast asian context

presents biographical profiles of significant women from throughout the history of the world each with birth and death dates when known a time line quotation and references arranged alphabetically from brem cold

this enormous undertaking which according to one of the prefaces professes to be a complete list of every bird known at the time of publication kept growing even as it was being written the museum added eagerly to their already vast collections during the decades of publication acquiring by gift the great collections of a o hume on asian birds and those of sclater and salvin and godwin on neotropical birds so that the size of the collection nearly tripled between 1874 and 1888 sharpe originally intended to do all the work himself but others were called in when this became clearly impossible the plates are all of birds not previously illustrated in the decades following its publication this catalogue was universally acclaimed as the most important work on systematic ornithology that has ever been published zimmer p 96 and even after one hundred years it remains an essential reference for the serious ornithologist as it underpins a great deal of modern bird classification with 387 plates most hand coloured lithographs some chromolithographs by william hart j g keulemans joseph and peter smit
